

CRIMINOLOGY - LEVEL 3

SUMMER TASK

The images below are of criminals who have carried out different types of crime.

For each of the criminals, you must carry out your own research and write a detailed account (approximately 500 words) of; the crime/s they committed, how they were caught, the sentences they received, and what has happened to them since.

You should use a range of sources (a minimum of 2 per criminal) when carrying out your research and make a note of the website or book used. Please do not use Wikipedia as it is an unreliable source.

Nick Leeson

Iftikhar & Farzana Ahmed

Alex Bessell

Fred West

Idi Amin

Based on your research and new-found knowledge, select a 'type' of crime carried out by one of the above criminals and create a Campaign Poster to 'raise awareness' of the crime.

You may want to research some examples of Campaign Posters for issues such as Road Safety and Domestic Violence for some ideas before producing your own.

For example, for a 'Technological Crime' you may produce a poster to highlight the crime of 'Cyber-Bullying', highlighting specific statistics on how often cyber-bullying occurs and who are more likely to be the victims of this crime. You may even want to provide information on who should be contacted to report a cyber-crime.

Remember, Campaign Posters are usually eye-catching, colourful and give the viewer a visual idea of the issue at first glance.
