

Safer Students Charter

Students are partners in the education process and your safety is our priority. As a group of colleges, we follow robust safeguarding approaches, and together we have designed a programme of safety activities for you to attend or be involved in throughout your time with us.

Your colleges create a culture of safety and partnership with you to help you learn and develop by:

- Treating all students as active partners in learning and ensuring all college staff treat students with respect, consult with you and ask and listen to your views.
- Creating an environment where peer-on-peer sexual assault and sexual violence is not tolerated and individuals can speak out and receive support.
- Promoting equality, celebrating diversity, and ensuring whatever your identity you will feel welcomed, supported, safe and included.
- Providing opportunities for involvement in a calendar of themed activities to develop skills, confidence and resilience in preparing you for the future.
- Empowering you to become informed and healthy citizens.

CWM Commitment

As a group of college and partners, we will work together to:

- Encourage all member colleges to adopt and promote the Charter to shape student safety.
- Develop a simple tracking system with you to measure our progress and ensure we are enhancing student safety.
- Develop a plan for student activities and to promote shared resources.
- Work with other partners to share information where it supports student's safety and well-being.
